

DupliCALL DCLog Product Portfolio Naming Upgrade

Artificial intelligence technology is evolving rapidly. To keep pace with AI development trends, accelerate the implementation of large language model capabilities, clarify product tier positioning and align with the Company's AI technology roadmap, we hereby issue this formal notice regarding the naming adjustment for the DCLog product family. This naming change will take effect starting with the upcoming DCLog 5 Version 25.0.000.3. Details are as follows:

一、Product Naming Upgrade

Former DCLog ES: Officially renamed to DCLog STD. All existing product features, service continuity and contractual terms remain unchanged. Valid contracts and entitlement licenses for legacy DCLog ES will be automatically mapped to DCLog STD with no contract amendment required. During the transition period, the Pricebook will be marked as DCLog STD (DCLog ES), where the name in parentheses refers to the legacy product name.

Former DCLog EP: Officially renamed to DCLog LLM. This is solely a naming change. All existing product features, service continuity and contractual terms remain unchanged. Valid contracts and entitlement licenses for legacy DCLog EP will be automatically mapped to DCLog LLM with no contract amendment required. During the transition period, the Pricebook will be marked as DCLog LLM (DCLog EP), where the name in parentheses refers to the legacy product name.

New Product: DCLog AI+ is added to the DCLog portfolio. Designed for advanced intelligent business scenarios, it delivers enhanced AI capabilities as the flagship edition with a richer set of AI features.

二、Transition Arrangements after Naming Upgrade

A transition window is established for this naming upgrade. During the transition period, both legacy and new product names are acceptable for quotations, contracts, deliverables and official documentation. Upon the end of the transition period, only the new names shall be used uniformly across all quotations, contracts, deliverables and official documents. This adjustment will not impact ongoing project delivery, technical support or online services.

三、Updated Product Portfolio

DCLog STD: STD Edition (Former DCLog ES)

DCLog LLM: LLM Edition (Former DCLog EP)

DCLog AI+: AI+ Edition

Should you have any questions regarding this naming upgrade, please contact your account manager or product support team.

Thank you for your continued trust and support.
